DOT West Headwall	N/A	Surface	--	No DTW	--	--	--

Notes:

- = not measured
- bgs = below ground surface
- DTW = depth to water
- ft = feet
- MSL = mean sea level
- ND = not detected
- PID = photoionization detector
- ppm = parts per million

The following formula was used to calculate the groundwater elevation for wells where product was detected:

$$\text{Groundwater Elevation} = \text{Measuring Point Elevation} - [\text{Depth to Water} - (\text{Product Thickness} * \text{Product Specific Gravity})]$$

Product Specific Gravity is estimated to be 0.74
