Re: Investigative Area 10 Northern Portion (IA-10N) – Soil Remedial Action Report
Hoffmann-La Roche Inc.
340 Kingsland St.
Nutley, Essex County
SRP PI# 009949
Activity Number Reference: RPC070001

The New Jersey Department of Environmental Protection (Department) has completed a review of the IA-10N Soil Remedial Action Report (RAR) dated April 26, 2017, submitted pursuant to the Site Remediation Reform Act (N.J.S.A.58:10C-1 et seq.), the Administrative Requirements for the Remediation of Contaminated Sites (N.J.A.C 7:26C), and the NJDEP Technical Requirements for Site Remediation at N.J.A.C. 7:26E. The IA-10N Soil RAR was prepared by TRC environmental Corporation on behalf of Hoffmann-La Roche Inc., and certified by the Licensed Site Remediation Professional (LSRP) retained for IA-10N. The IA-10N Soil RAR addresses soil only; remedial actions for the ground water in IA-10N are being addressed by Roche separately.

The Department notes that any fill-related constituents present in the groundwater in IA-10N will be addressed by Roche as part of a site-wide groundwater Classification Exception Area.

Upon review, the Department hereby conditionally approves the IA-10N Soil RAR effective the date of this letter. It is the Department's understanding that the existing Soil Remedial Action Permit (March 30, 2017) will be modified in accordance with ARRCs, specifically, N.J.A.C. 7:26C-7, to include IA-10N.

After the Soil Remedial Action Permit is modified to include IA-10N, the LSRP may issue a Soil Only Response Action Outcome (RAO) for IA-10N in accordance with ARRCs, specifically, N.J.A.C 7:26C-6.2. Once issued, a copy of the RAO shall be provided to my attention within thirty (30) days of issuing the RAO.

If you have any questions, please contact me by telephone at (609) 633-1494 or by email at donna.gaffigan@dep.nj.gov.

Sincerely,

Donna L. Gaffigan, Case Manager
